## LANGUAGES

ITALIAN - native

ENGLISH - fluent

## SUMMARY

For several years I have been deeply passionate about web, application and API development by utilizing technologies such as Typescript, SvelteKit, Flutter, Golang, Postgres, Redis and MongoDB.

Additionally I have an interest in the DevOps, employing technologies like Docker and Kubernetes, UI/UX design and project planning.

I am continually seeking new challenges and i like to learn new programming languages to solve any problem presented to me. My strong organizational skills make me punctual and reliable in managing the projects entrusted to me.
